

HEALTH & SAFETY POLICY STATEMENT OF INTENT

In the field of health and safety we seek to achieve the highest standards.

We do not pursue this aim simply to achieve compliance with current legislation, but because it is in our best interests. The effective management of health and safety is an investment which helps us to achieve our purpose.

We will seek continual improvement in health and safety performance by attention to the design, maintenance of systems and places of work and of our products.

To achieve this, we will:

- Provide adequate control of health and safety risks arising from our activities.
- Consult with our employee on matters affecting their health and safety.
- Provide and maintain safe plant and equipment.
- Ensure safe handling and use of substances hazardous to health.
- Provide information, instruction, and supervision for employees.
- Ensure all employees are competent by providing them adequate training.
- Aim to prevent accidents and causes of work-related ill health.
- Maintain safe and healthy working conditions, including being COVID secure.
- Review and revise the policy as necessary at regular intervals.
